How do I get a Power School Parent Portal Username and Password?

A letter with this information will be mailed home. If you did not receive one – please contact the office of your child’s school.

Do I need a separate login for each of my children?
Yes, you will receive a unique login for each child.

Are Power School usernames case sensitive?
No, you may use upper or lower case.

What if I want others to have access to my child’s grades (Other parent/Grandparents)?
Provide them with your username and password. There is only one parent/guardian login and password issued for each student.

Is the Parent Portal secure?
Yes, the system requires an individual username and password for each child. In addition, the Power School Parent Portal has SSL encryption.

Can I change my password?
No, Power School does not allow for the ability to change your password. Please record it, and keep it somewhere safe. However, if you lose your password you can call the office of your child’s school and they will re-issue a new password.

I checked that I would like to receive e-mails and I am not getting them.
There could be multiple reasons. Please double check the email address you entered – it must be exact. Also, did you check your e-mail’s Junk or Spam folder? Check to see if messages are going there and choose to mark them as Not Spam. You will have to consult you e-mail’s help menu or manual as this is different with each email program.
