MIDDLE TOWNSHIP HIGH SCHOOL PARENTAL INVOLVEMENT POLICY

Middle Township High School will host an annual meeting to which all parents will be invited regarding their child's educational program, Title I as well as district funded activities, and opportunities for parents to involve themselves in their child's educational career. Additionally, the staff will make themselves available to meet with parents to discuss their academic or social progress at the high school. The purpose of these meetings is to share ideas, interventions, or adjustments designed to promote success, growth, and learning. Parents are invited to attend Parent Advisory Committee meetings throughout the school year to discuss the educational programs of Middle Township High School and offer suggestions for areas of improvement.
