

Good evening parents this is Dr. David Salvo Superintendent of Schools. After consultation with the County Health Department and other state agencies, **Middle Township Public Schools** will be closed until **April 20th**. Our plan to reopen on April 20th will be determined, after consultation, with those appropriate agencies. Please encourage your children to complete all school work assigned as the **Marking Period ends April 6th**. For those families who need technology to complete the home instruction, please call the school and arrangements will be made. If you have any questions during the closing please call your child's school. We will do our best to update you, throughout the closing, on our social media sites. Please be safe and thank you for your cooperation.
